

ACTIVITY FOR LESSON 3

1. Simplify: $\frac{3}{8} \times \frac{4}{5} \times \frac{2}{3}$

2. Work out: $2\frac{1}{2} \times 1\frac{3}{5}$

3. Multiply: $3\frac{1}{3} \times 7\frac{1}{2} \times 1\frac{4}{5}$

4. There are 400 children in a primary school. Two-fifths of them are girls. How many girls are there in the school?
