

OUR LADY OF GOOD COUNSEL SS- GAYAZA

S.1 BIOLOGY PROJECT WORK 2020

LEVELS OF ORGANISATION.

People in a group can perform more complex tasks than one person alone. Consider what happens in a home system shown below and your own home.

List six different types of people and their roles that are needed for proper functioning of a home.

Like people in a home, similar cells in our bodies are organised into groups to make them work more effectively. State any four groups of cells (tissues) that work together.
