GEOGRAPY PAPER1

Instrument

This paper consists of part 1 and II part 1 and section A of part II are compulsory.

Answer any one question from section B of part II .

Answer to all questions must be answered in the answer booklets provided

part I

OBJECTIVE TYPE QUESTIONS

(20 COMPULSORY QUESTIONS)

a. kyoga

b. victoria

c. Albert

d. Tanganyika

2. Which method is used in preserving fish in east Africa

- a. sun drying
- b. smoking
- c. incuring
- d. salting

3. which of these mountains is a volcanic mountain

- A. longonot
- B. Rwenzori
- C. Sabara
- d. ulugulu .

4.

A. one wet season and one dry season .

b. the wet season and the dry season

c. Dry through one the year .

d. The wet season and one dry season

5. Which of the following is not a coastal land form .

- A. calderas,
- B. cliffs
- c. caves
- d. stacks

6. which of the following rocks are igneous ?

- a. Granites and period coal
- b. lime stone and

c. sand stone and shade
basalts

d. obsidians and

7. Which of these lakes is famous for mining ?

A. lake victoria

b. lake

Naivasha

c. lake magadi

d. lake

rukwa

8. The first process in the formation of the sedimentary rocks is

A. Deposition

B. transportation

c.

weathering

d. stratification.

9. Most of the major rocks in E. Africa are

A. granite

b. fault rocks

c. igneous .

This paper consists of part I and II part I na section A of part II are compulsory

Answer any one question from section B of part II.
answered in the answer booklet provided

PART I

OBJECTIVE TYPE QUESTIONS

(20 COMPULSORY QUESTIONS)

1. The largest fishing ground in uganda is lake

- a. l. kyoga b. victoria c.
Albert D. Tanganyika

2. Which method is used in preserving tirupia fish

- A . sun drying b. smoking c. Flucuring
d. salting

3. Which of these mountains is volcanic mountain

- A. longonot B. Rwenzori c.
usamabara D. uluguru

4.

- A. one wet season and dry season

B. Two wet season and two dry season

C. Dry through out the year .

D. two through out and one dry season

5. Which of the following is not coastal land form .

A. calderas

B. cliffs

c. caves

d. stacks

6. Which of the following rocks are igneous

A. Granite

and peridotite

B. lime stone and

coal

c. sandstone

and shale

D. obsidians

and

7. Which of these lakes is famous for mining ?

A . Lake victoria

b. Lake Naivasha

c. lake

Magadi

D . Lake Rukwa

8. The first process in the formation of a sedimentary rock is

A. Deposition

B. transport

c.

weathering

D. Stratification .

9. Most of the major rock in E.Africa are

- A. crater lakes
- D. fault lakes
- c. Landammed
- D. Down wapped lakes

10. The movement of weathered material down a slopes due to the influences of gravity is

- A. glaciaiation
- B. Mass wasting
- c. Exfoliations
- D. Shatter

11. A matrial carried by the glacier and later deposited is referred to as

- A. moraine
- B phyramidal peak
- c. Hanging valley s
- D. drumlines

12. Which of the following process was responsible for the formation of lake katwe

- A . volcanicity
- B. folding
- c. Warpping
- D. Glaciation

13. The basin like feature found on op of some volcanic mountains of East Africa is called ?

- A. Narrow steep sided valley

B. Broad flat valleys

C. hanging valleys

d. U shaped valleys

15. Which of the following is the most resistance rock in Uganda .

A. quartz

B. Granite

c. phylites

D. slate

16. The vertical cross section of soil from top to bottom is called ?

A. soil profile

B. catena

c. leaching

d. Loam soil

17. When rocks break down due to minerals in terms of being dissolved by water, this is referred to as

A. carbonation

B. Hydrolysis

c.

Hydration D. oxidation

18. Which element of weather measures air pressure

- A. rain gauges B. Barometer C.
Anemometer D. wind vane

19. Igneous rocks are formed during the process of

- A . warping
B. folding
c. faulting
d. vulcanicity

20. Flamingoes in kenya are a tourist attraction on lake ?

- A. Manara
B. Tnaganyika
c. Nakuru
d. victoria

part II

MAP WORK PHOTO GRAPHY INTERPRETATION , FIELD
WORK AND EAST AFRICA.

Answer 4 questions in part II questions

1. compulsory questions map work (20 marks) study
the 1:50,000 (uganda namwenda map extract and

answer the questions that follow

a. Identify the physical feature at. 431088

i. state the grid reference for Hindu crematorium

b. (i) Measure and state in kilometers the distance of the railway line from kibulamuti 8 jinja (280978) to Namwenda station (367008)

ii. State the bearing of I kumya GHA from Bukoma Ghq

C. Draw a sketch map of the area shown on the map and on it mark and name

(i) A forest area

(ii) A forestation area

(iii) wood land

(iv) Railway line

(ii) watertank

(iii) Hilly area

d. Giving the Evidence from the Map describe the relief of the area

2. Compulsory question photographic interpretation.

use the photographical and answer the question below it

3. Compulsory question field work

for any field work study you have conducted either as an individual or group

(i) state the topic of field work study

(ii) Outline the objective of the study.

b. Explain the relationship between the physical feature and human activities in the area studied

c. Outline the steps you took to prepare for the field work .

d. Outline the follow up activities you conducted after the field work study.

4. Study the table below showing value of output in transport in 2002 in ksh million and answer the questions that follow.

a. Draw a pie chart to show the relative importance of the transport means shown in the table above

show in the table above

b. identify the transport that contribute the

(i) Highest (ii) lowest amount in 2002

b. Describe the factors that have sectors in E. Africa
sector in E. Africa.

(i) Explain the problem facing the transport sector in E. Africa

d. Giving the evidence from the map describe the relief of the area.

2. Compulsory question photographic interpretation . use the photography provided and answer the question

below it .

3. Compulsory question field work.

For any field work study you have conducted either as an individual or group

(i) state the topic of field work study

(ii) outline the objectives of the study

b. Explain the relationship between the physical features and human activities in the area studies

d. outline the follow up activities you conducted after the field work study.

4. study the table below showing value of the output in transport in 2002 in the ksh million and answer the questions that follow

5. study the sketch map of the E.Africa provided below

and answer the questions that follow.

a. Name the countries

(i) 1 _____ and 2 _____

(ii) lake z _____ and k _____

(iii) port A _____ and B _____

B. mention any 2

(i) tourist attractions found in E. africa

(ii) countries where tourist come from

c. outline the benefit of the tourist industries to the people of E. Africa.
