#### ROUGH COPY

The following are the side effects of smoking as given in the passage.

- Young people experience the effects of headache, coughing, dizziness, nausea and have to live with unpleasantness of bad odor.
- There are other side effects caused by smoking which include lung cancer, heart attacks, stomach ulcers, defective vision, coughing, shortness of breath and cancer of the mouth, noise, throat, bladder, and blood.
- Other effects include spontaneous abortion and other pregnancy complications among women, babies with low birth weight and still births, cancer of the cervix and early menopause.
- However, other effects of smoking like tobacco smoke are; air pollution that irritates the eyes and throat exposes non-smokers to a risk
- Smoking also causes many domestic and forest fires.

**NB: A candidate may list more or less points and more or less words which can be corrected later in a fair copy.**

#### FAIR COPY

The following are the side effects of smoking as given in the passage;

It causes headache, coughing, dizziness, nausea and unpleasantness of bad odor which is experienced by young people who are beginners in smoking. The other side effects and diseases caused by smoking are; lung cancer, heart attack, stomach ulcer, defective vision, coughing, shortness of breath and cancer of the mouth, nose, throat, blood and bladder.

However, other effects of tobacco smoking on women include; spontaneous abortion and other pregnancy complications, babies with low birth weight and still births, cancer of the cervix and early menopause.

In conclusion, smoking has many other effects like tobacco smoke which causes air pollution that irritates eyes and throat and exposes non-smokers to risk. It causes domestic and forest fires by careless smokers who do it carelessly in risky places like in dry vegetation.

**NB:**

- **The number of words should be ranging between the average numbers of 60 words to 120 words.**
